

FlexElite Splitter

Date:

Type:

Firm Name:

Project:

1 In 2 Out, IP66, Black

For use with FlexElite luminaires

The FlexElite splitter allows you more customization than ever. The flexible connectors let you connect nodes, jumper cables, and leader cables in any constellations you choose. Splitters can also be nested to allow for complex run configurations. With the ability to easily connect all of the modular components of FlexElite, you're imagination is the limit.

- The FlexElite splitter allows for branched runs, enabling new types of installation layouts. The increased flexibility lets you choose from new configurations like pendants, grids, trees, and more.
- Splitters can be nested up to 8 deep within a run, from the power/data supply to the last node with no loss of auto-discovery addressing.
- FlexElite Splitter can be placed anywhere within a run, and integrated with leader and jumpers cables, and nodes, connected on input and outputs.
- Rugged push-and-click watertight connectors ensure reliable connections. FlexElite Splitter is available in black to match nodes and cables.
